

Do you live in a house, townhouse or apartment?

Do you ever park your car on the side of the road?

Do you own or rent an office or retail space?

If you answered “yes” to any of these questions then you **must** go to the www.localgovernmentclassaction.com website and add your name and e-mail address to that page to register your expression of interest in the class action.

Why?

Because if you live in anything other than a tent or caravan, whether you rent it, own it or are buying it, then you will be in some way, paying for ever-increasing council rates. The same applies to council rates, which will be included in your business figures somewhere along the line as well. And, if you drive a car then you will almost certainly, at one point in time or another, have received a council issued parking fine – which are completely illegal.

The Community Law Resources Group are looking to run a class action against local governments to have local councils returned to acting as a department of a State, as opposed to a 3rd tier of government, which is what they are currently doing – completely illegally. If this class action is successful, it would mean a dramatic reduction in council rates and the elimination of council issued parking fines, un-registered dog fines and the like.

However, in order to run a successful class action like that, CLRG need your support. They are not asking for any money and they are not asking for any commitment, they are simply asking for your expression of interest in being part of a class action that will benefit you, your family and your community as a whole.

So, please take just 30 seconds to register your name and e-mail address at www.localgovernmentclassaction.com and do your part to help bring about some real, positive changes in this country. And then, when you’ve done that, please be sure to pass the details of that class action onto **everyone** you know via e-mail, Facebook and posting up flyers, such as this, in your local area to help us spread the word about this important class action.
